

Project Summary Report Form

Why provide information?

The ITS Rocky Mountain Chapter wishes to provide a means of information dissemination for both its public and private sector members. It is hoped that this information will provide an easier way for individuals both in and out of the ITS field to access information on projects within their geographic area; as well as provide a conduit for peer contacts and mentoring. This information will be distributed via the ITS Rocky Mountain website as well as a monthly *Project Journal* disseminated via the chapter list-serve. Initially the website and *Project Journal* will include only ongoing or upcoming projects, but project update sections will be added over time.

The information provided below will be reviewed by the ITS Rocky Mountain Chapter Board of Directors and posted to the ITS Rocky Mountain *Regional Projects* web page as well as disseminated via the monthly *Project Journal*. Please provide as much information as possible. When completed, please locate your respective state from the below table and email this description to the listed State Senator as soon as possible. Thank you.

Colorado

Marilyn Kuntemeyer, Transportation Consultant
MKAYKAY80@msn.com
Robert Kochevar, City and County of Denver
robert.kochevar@ci.denver.co.us

Idaho

Jim Larsen, Ada County Highway District
